

## Plan of the Day

### Year 6

<u>Activity</u>	<u>Summary</u>
<b><u>Morning Activity</u></b>	Each morning your child will be greeted by the same familiar adults and will be reminded about the bubble/group rules (e.g. social distancing and hand washing). There will also be a morning activity available for the children to start their day with. At the beginning of the autumn term, this morning activity will relate to mindfulness and wellbeing.
<b><u>English</u></b>	Their daily English lesson will provide your child with the opportunity to practise any areas of writing they need to develop further. For the first 2 weeks of English, the focus will be PSHE and wellbeing and the children will be studying Cloud Busting by Malorie Blackman.
<b><u>Comprehension</u></b>	To ensure your child is able to catch up on missed learning, they will receive a daily reading lesson with a focus on developing their comprehension skills including retrieval and inference.
Break	
<b><u>Maths</u></b>	Children will engage in many maths activities when they return in September. The focus will be assessing your child and identifying their gaps in learning as a result of the school closure. Teachers will then incorporate these gaps in learning in future lessons.
<b><u>Spelling/Handwriting</u></b>	Year 6 spelling objectives will be taught but children will also be taught any Year 5 spelling objectives they missed as a result of the school closure. Your child will also be able to develop their cursive handwriting during this time.
<b><u>Circle Time</u></b> <b><u>RE</u></b> <b><u>Computing</u></b>	Throughout the week your child will have a variety of lessons at this time of the day depending on which day it is.  Your child will have the opportunity to be involved in a circle time session where they can share their feelings and concerns. The class teacher will plan these sessions based on any specific areas that arise within their class.  Also, Religious Education and Computing will be taught based on the national curriculum objectives.
Lunch	
<b><u>Story time</u></b>	After lunch, during story time, an adult in class will read to your child.  It's important that children are exposed to reading as often as possible and so this will be a focus throughout every day.
<b><u>PSHE/Science</u></b>	The last lesson of the day will also focus on our theme of wellbeing. They will be taught how to understand the many emotions they may be feeling in this current climate as well as other areas, such as staying safe online. Your child will also be able to take part in science lessons where they will have the opportunity to plan and complete investigations and experiments!
